A NEW — TRANQUIL REALM

Within the meticulously crafted confines of the second-generation LM, quietness and tranquillity reign supreme. The peaceful interior provides a respite from life's stresses, creating a calming refuge that recharges. For those that live life at the helm, it can also enable continuous productivity away from the office. The unique blend of peace and quiet is made possible by the effortless power of a selection of two electrified hybrid powertrains – a turbocharged 2.4-litre hybrid four-cylinder or a 2.5-litre hybrid.

Rooted in intuitive human-centred experience, the Lexus Driving Signature (LDS) facilitates a distinct and engaging driving interaction. The Lexus LM optimises comfort with a genuine focus on passenger well-being. By adjusting the operation of essential components such as steering, acceleration and suspension, LM delivers a more restful chauffeured ride. Only at Lexus, with unprecedented attention to every detail, would crafting such an exquisite sanctuary be possible.

Overseas model LM 500h shown. Australian specifications and features may differ. See your Lexus dealer for details.

DRIVING — SIGNATURE

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DRIVING SIGNATURE

LM 500h - 2.4T-HEV DIRECT4

A controlled, smooth application of power and torque is realised. Harnessing the 202-kW, 2.4-litre turbocharged inline-four, matched to a six-speed automatic gearbox, integrated Power Control unit, and 64-kW motor. At the rear, a 76-kW eAxle provides near-instantaneous power to the rear wheels. A standard DIRECT4 all-wheel drive system orchestrates a seamless, direct application of drive force between the front and rear axles in milliseconds, no matter the situation, thus improving handling, controllability, and feel. Body movement is also minimised for a more comfortable ride.

LM 350h - 2.5L-HEV FWD / E-Four

A 140kW, 2.5-litre four-cylinder engine is teamed with an all-new high-output, low-resistance nickel-metal hydride battery that offers a high level of output. The battery is located below the front centre console and seats, thus enabling improved passenger comfort. The available E-Four, Lexus' innovative all-wheel drive system, places a motor at the front (134-kW output) and rear (40-kW output) axles for near-instantaneous drive force application in low-grip or acceleration scenarios.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DRIVING SIGNATURE

LM's chassis and body structures employ substantial bracing and reinforcement to maintain a smooth, predictable driving composure. Overall rigidity is increased, drastically reducing yaw, pitch and roll. Added reinforcement is found at the front and rear suspension (structural support), radiator (front circular structure), cowl (steering system stiffener and bracing), and B, C, and D-pillars.

Lightweight Body

LM's thinner panels save 12.3 kilograms and all-new 0.7mm thick aluminium sliding doors save 15.8 kilograms, whilst still ensuring safety.

B Front Quarter
C Front Door
D Roof
E Rear Door Panel
F Back Door

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

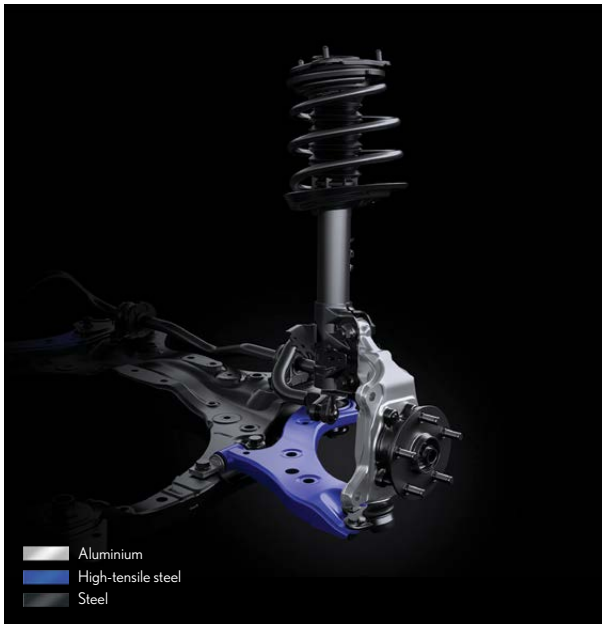

— DRIVING SIGNATURE

Front suspension

Rear suspension

Improved Suspension Geometry

The geometries of the front MacPherson™,[1] strut type and rear trailing arm type double-wishbone are enhanced for improved absorption and deflection of road inputs. This delivers a more controlled driving experience, higher passenger comfort levels and more cabin space.

Lightened Suspension

Aluminium front and rear suspension carriers, and a new hub bolt fastening system, contribute to LM's light weight, without sacrificing the required stability. The latter system provides a higher axial force, which widens the tyres' contact patches and improves steering response.

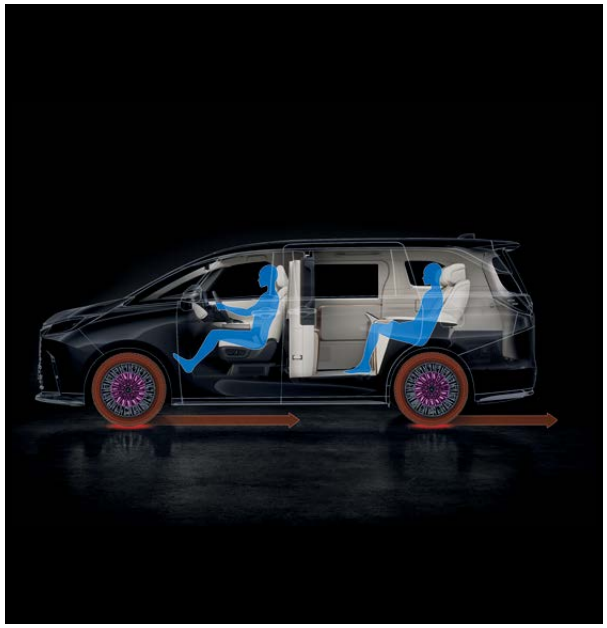

Adaptive Variable Suspension (AVS)

LM's AVS system provides improved stability and superior steering response for a comfortable ride. AVS uses linear solenoid-type actuators to modify the shock absorbers' damping force with near-instant adjustments based on driving operation and road conditions. The Frequency Sensitive Valves within the dampers further reduce noise and vibration inside the cabin.

[1]Product and company names are trademarks of their respective owners.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DRIVING SIGNATURE

Electronically Controlled Brake (ECB) System (AHB-G)

With its pressure-on-demand system, ECB braking provides excellent controllability, responsiveness and a natural brake feel with an optimum balance between brake effectiveness and rigidity. Front-rear pressure regulation is independent, so front-rear brake force distribution can be better applied, enhancing ride stability and quality.

Vehicle Braking Posture Control (Pitch Control)

During braking manoeuvres, front-rear brake force distribution varies according to the driver's braking input and the suspension's vertical inputs. Brake force is concurrently weighted toward the rear to reduce pitch changes and suppress vehicle lift, thus improving rear seat ride quality and minimising front-to-rear head movements.

Vehicle Braking Posture Control (Roll Control)

During cornering manoeuvres, posture control programming employs the LM's braking system to suppress roll and stabilise the vehicle's posture. When a lateral acceleration sensor detects excessive roll rate, nominal braking force is applied to the rear inner wheel to generate anti-lift force that effectively pushes the vehicle body down, reducing the roll growth rate and improving posture.

Wheel Construction

The LM is outfitted with 19-inch x 7-inch forged aluminium wheels, which feature a new finish.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

LEXUS
— DESIGN

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

Evolving the resolute look.

Exterior

Designers approached LM's styling with a fresh perspective. Instead of founding LM's overall shape on the iconic spindle grille, they began with what is known as the Unified Spindle – the centrepiece of Lexus' Resolute Look that first debuted in 2003. With this design approach, LM's proportions remain sleek, wide, and focused on an optimal rear-seat-forward aesthetic, thus expressing superb comfort and performance.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

Unified spindle with resolute look and a solid stance.

Front

The LM's protruding Unified Spindle grille is placed below the slim triple-beam LED headlights to express a modern, intelligent façade. The Function Crevasse, a slender crease running above the headlights and below the sloping hood, aids in reducing airflow pressure and drag coefficient. The seamless grille not only effectively directs and deflects air to improve the powertrain's cooling efficiency, it also enhances the passengers' ride comfort.

Rear

An expansive L-Signature bar lamp features an additional horizontal lamp placed above. The three-dimensional lighting unit spans from pillar to pillar to emphasise LM's width and sturdy stance.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

'Rear-seat-first' profile.

Side

An elongated silhouette with a low beltline produces a 'rear seat first' appearance. Emphasising front and rear tyres while maximising passenger space and outward visibility. Blacked-out A and D-pillars provide passenger privacy.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

Engineering the 'Silent Body'

Tranquillity is achieved through aerodynamic astuteness. Engineers have developed one of the most aerodynamically efficient and airtight body structures ever to wear a Lexus badge.

Seamless Grille

The seamless Unified Spindle's shape makes the LM more aerodynamic, which benefits steering response, improves ride quality and adds to passenger cosiness.

Acoustic Glass

The windshield, front quarter, front door, and sliding door utilise acoustic glass for the reduction of high-frequency wind noise.

Body Streamlining

By making LM's body streamlined, aerodynamics have been improved and drag has been reduced.

Wind Noise Reduction

A low-profile A-pillar sits nearly flush with the windshield and front passenger window glass to combat buffeting noise. A hood rectifier, positioned where the windshield meets the hood, smoothes airflow. With the exterior mirrors' aerodynamic shape reducing wind-drag and noise around the vehicle..

Advanced Airflow

Body moulding that sits as flush as possible to the LM's window glass improves overall aerodynamics and handling stability. At the lower body, sculpted rockers wear air-directing fins to promote a flat, stable ride and stifle body roll. A dimpled underbody cover manages airflow, benefitting stability at higher speeds.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

Blending of Worlds

Part living room, part office space, a sense of calm permeates LM's interior. This is especially true in the rear cabin where the environment seamlessly blends the two distinct worlds within the well-appointed, spacious sanctuary.

Owners can choose either a four-seat (LM 500h models only) or seven-seat (LM 350h models only) configuration to accommodate their requirements. The former arrangement is catered to chauffeur driving and the latter to business or family mobility. Either selection offers a serene, minimalist design accentuated by expansive outward views, an abundance of human-centred technologies, and, of course, exceptional comfort.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

LM 500h model shown

Interior Perspective

LM's interior is exemplified by a stunning and welcoming aesthetic, a smooth, comfortable ride quality, and calming acoustics.

Welcoming Decor

Materials, along with their colourings and textures, interplay masterfully to accentuate a welcoming aesthetic characterised by modern styling.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

Decorative lighting conveys Omotenashi to passengers at an emotional level. A selection of 14 indirect lighting colours amplifies the beauty of the space's forms and materials.

LM 500h model shown

Front Seats

Indirect lighting is visible on the pull handle, e-Latch lever, and footwell.

Rear Seats

Indirect lighting is visible on and around the ceiling, side trim, and footwell for all seat configurations.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

LM 500h model shown

Serene Quietness

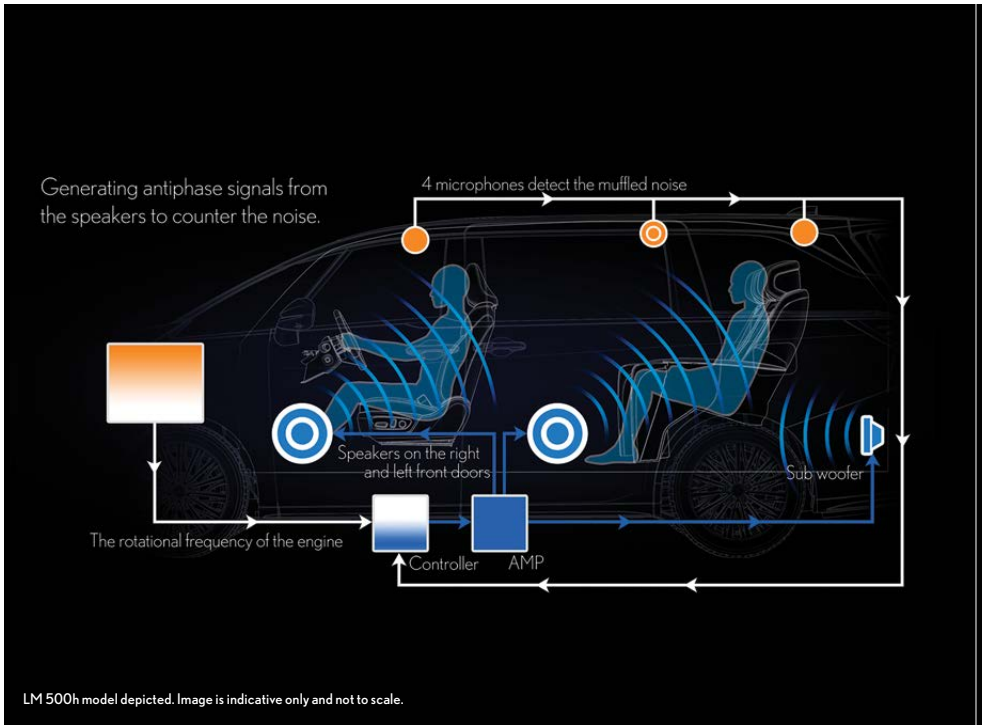

Upon entering and well into a journey, the atmosphere is one of serene quietness thanks to the inclusion of noise and sound-controlling measures. A sense of calm insulation allows for unobstructed conversation, movie watching, or focused productivity.

Rear Comfort Mode (RCM)

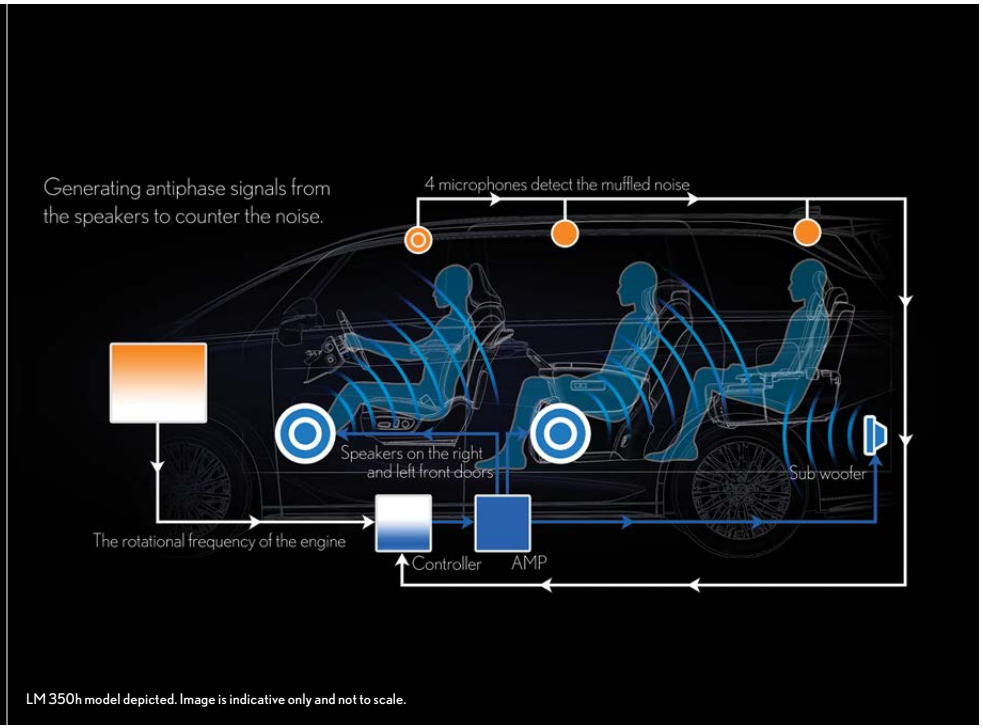

Part of the Drive Mode Select feature (Normal, Eco, Sport, Rear Comfort, and Custom), the RCM is a sophisticated program that orchestrates Adaptive Variable Suspension, Electric Power Steering, and braking to minimise squat and dive during acceleration and braking. RCM vastly improves rear passenger comfort by maintaining level seating positions, mitigating overall head and body movement. Passengers can read and write without abrupt jostling while traveling over most road surface types.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

LM 500h model depicted. Image is indicative only and not to scale.

LM 350h model depicted. Image is indicative only and not to scale.

Active Noise Control (ANC)

ANC maintains acoustic frequencies that our senses perceive as natural and calming for a relaxed environment. Four microphones detect unwanted exterior noises and sounds, using LM's audio speakers to output a reverse phase frequency to cancel them out. Microphones placed in the four-seat configuration prioritise the rear seat zone, while those in the seven-seater cover the entire cabin equally.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

LM 500h model shown

LM 500h model shown

Layered Headliner[1]

The LM's new, multi-layered headliner is insulated for more effective noise absorption. This ensures the cabin is a more comfortable space with better balanced acoustics.

Partition Sound Insulation[1]

The partition's composition includes an interlayer film for sound insulation. Improved sealing around the partition also enhances overall quietness.

Noise-proofing Materials

Noise-proofing material has been used in optimal locations covering a wide area – including the floor carpet, dash silencer, door trim and ceiling – to provide a high level of cabin quietness.

- Noise-absorbing roof headlining
- Non-noise absorbing roof headlining[1]
- Noise-absorbing Thinsulate™,[2] at doors and rear cabin
- Noise-absorbing Thinsulate™,[2] at partition[1]
- Noise-insulating material at partition[1]
- Noise-absorbing dash silencer at front cabin
- Noise-absorbing felt at underbody
- Wheel-well silencer
- Noise-insulating front floor carpet at front cabin
- Front floor silencer at front cabin floor
- Noise-insulating rear floor carpet and noise-absorbing beadless mat at rear cabin

Glass Roof

Dual independent roof windows located above the rear seats creates a sense of airiness. They can be individually controlled via switches on the front/rear overhead console and rear multi-operation panel.

[1]Four-seat configuration only.
[2]Product and company names are trademarks of their respective owners.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

LM 350h model shown

Tazuna-inspired Environment

The Tazuna (horse's reins) concept informs the front cockpit's design, connecting human and machine intimately and intuitively through driver-oriented placements of controls, information, and media. The simple, wide-open layout realises an expansive feel, with the minimalist instrument panel a focal point.

Thoughtful Seat Design

The eight-way driver, four-way passenger power front seats use Methylene Diphenyl Diisocyanate (MDI) material in their lower cushioning for superior body stability and pressure distribution, reducing poor posture and elevating comfort. Semi-aniline leather accented, leather accented, and Ultrasuede[1] cover the seats for a comfortable feel and luxurious look.

[1]Black interior only

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— DESIGN

Optimised Placement of Controls

The steering wheel, accelerator pedal, brake pedal, and footrest sit more upright to optimise the driver's posture. This minimises muscle load for a more comfortable driving experience.

Takumi Craftsmanship and Omotenashi

The seamless transition of shapes and stitching from dashboard to door evokes quality and sophistication. Large cupholders, storage cubbies, and device charging (two USB Type-C ports in the four-seater; two USB Type-C ports and Qi wireless charger[2] in the seven-seater) are housed in the front console box.

Central Touchscreen

A 14-inch, full high-definition Electro Multi Vision (EMV) wide display shows climate control, multimedia, and vehicle system settings. Depending on market specifications and settings, Wireless Apple CarPlay®,[1] or Wireless Android Auto™,[1] seamlessly connect to paired devices upon engine start-up. Physical dials on the screen's lower corners control cabin temperature and audio volume levels.

Tazuna Elements

A Steering wheel-mounted switches and controls

B Low instrument panel placement for optimal field of view, also providing space for the Head-up Display (HUD)

C Intuitively placed controls for navigation functions, audio system, and driving mode selection within easy reach to promote minimal movement of the driver's line of sight

D Easy-to-reach e-Latch, door grip and power window switches

[1]Requires compatible device, USB connection or Bluetooth® connection for vehicles fitted with wireless CarPlay® and wireless Android Auto,™ mobile data, network reception and GPS signal. Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

LEXUS — FEATURES

Overseas model LM 500h shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown

Vision

Seating found in private jets, first-class commercial airline cabins, cruiser boats and yachts inspired the look and feel of LM's seats. Their ergonomically optimised shape incorporates an anti-vibration frame and bowed armrests for optimal comfort. Twin power seats with ottomans serve as the centrepieces of the rear's seamless vertical and horizontal look. More than ornate thrones, the seats are among the most advanced and comfortable ever crafted by Lexus.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown

Dimmable and Elevatable Glass[1]

Three modes control sound transmission and visibility: Open, Privacy (elevated glass with transparent visibility), and Full Privacy (elevated glass with frosted dimmed glass). Placement of the glass opening allows for an excellent field of view from the twin rear seats. The front instrument panel is out of sight, while the road ahead can be seen by passengers to prevent car sickness.

Surround-sound Speakers

Two 10cm diameter surround-sound speakers reside on the top edge of the 48-inch ultrawide screen.[1] At this position, the sound image is better aligned with occupants' ears, providing excellent sound localisation. The stainless steel grilles, made for tailored rib and ratio placement, maximise acoustic performance.

Slim Air Conditioning Registers

Electric registers make for automatic (via Climate Concierge) or directed (via the multi-operation panel) adjustments of climate control airflow.

[1]Available on LM 500h models only.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

Assist Grips

Integrated on both sides of the partition, the Takumi designed grips are discreet grab handles that provide a solid, comfortable foundation for a firm hold. Their seamless construction blends with the clean aesthetic.

Footwell Storage and Refrigerator[1]

Located above each footwell, twin gloveboxes provide additional small item storage. A central refrigerator sits between them.

Umbrella Stand[1]

An integrated small belt (maximum diameter of 40 mm) holds either a straight-handled umbrella or small shoehorn.

[1]Available on LM 500h models only.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown. All images indicative only.

48–inch Ultrawide Screen[1]

The 3840 x 1080 resolution display offers single or dual-screen viewing modes. Its height is set within 15 degrees of horizontal – the ideal angle for television viewing. The angle also allows for the forward viewing of the road ahead through the elevating glass with dimming function, if desired. Two viewing and listening modes are available thanks to a Lexus-first, three-way independent audio output system, which enables individual or linked viewing of content between front and rear passengers. Android™,[2] devices can stream content directly onto the screen, while Apple™,[2] devices can do so via a wired HDMI or Apple TV connection.

Personal Charging Stations

A Qi-wireless charging[3] station and two USB Type-C ports are located next to the seats' outer armrest within the covered quarter box. A headphone socket is also included.

[1] Available on LM 500h models only.
[2] Product and company names are trademarks of their respective owners.
[3] Only Qi-supported devices compatible. Refer to device manufacturer. May require additional purchase of accessory to support wireless charging.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown

Centre Console Stowage

Two compartments at the lower front of the central console can accommodate small items.

LM 500h model shown

Overhead Controls[1]

A sleek control panel sits above and centre of the rear seats. Settings for window shades, roof sunshade, ambient illumination, and air conditioning can be adjusted via the control panel. Dual LED illuminated vanity mirrors can be tilted to an increased 140 degrees for improved visibility when checking one's neck area or tying a tie. Multi-Operation Panel Located atop the centre console's front edge, the panel consists of two independent remote controllers that command rear seat functions, as well as Lexus Climate Concierge, audio, and ambient illumination settings. A warning buzzer sounds when the controllers leave the interior's immediate vicinity.

[1]Available on LM 500h models only.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown

Multi-operation Panel

Located atop the centre console's front edge, the panel consists of two independent remote controllers that command rear seat functions, as well as Lexus Climate Concierge, audio, and ambient illumination settings. A warning buzzer sounds when the controllers leave the interior's immediate vicinity.

Lexus Climate Concierge

A one-stop, integrated control of the rear area's comfort equipment, including seat reclining, air conditioning, ambient illumination, and shade functions. Passengers can select one of five pre-set modes – Dream, Relax, Focus, Energise, My Original – all on the multi-operational panel controllers that best reflect their desired environment. The system automatically adjusts the comfort equipment's settings based on temperature readings taken from an infrared matrix sensor located at the partition's top centre. The sensor detects surface area temperatures across windows, trim, ceiling and elsewhere, estimating the warmth of four body areas (face, chest, upper leg, lower leg) during its adjustment and applies air conditioning and seat heater/ventilation.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

FEATURES

LM 500h model shown

Soft Surface Layer

Two types of vibration-absorbing materials – low-resilience foam (high viscoelasticity traits) and urethane (high sitting pressure dispersion quality) encompass the body to provide proper support, reducing vibrations transmitted from outside the vehicle.

Fixed Headrest

A large headrest with a high-back design and concave centre cushion accommodates a wide range of head sizes and shapes, as well as body postures.

Armrest Table and Storage

Each chair's outside armrest contains a stowable table that can act as a stable foundation for a tablet, notebook, or laptop. When deployed, the table can rotate, allowing for easy reach into the refrigerator. The inside armrest features a two-way opening console lid that includes useful storage.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown

Seat Operation

A seat-shaped control located on the centre console adjusts the seat's reclining, lower seat cushion tilting (new), ottoman extension and heating and cooling functions. If desired, the seat can be fully reclined to a flat position.[1]

Relaxation Function

Air bladders within the seat's back and cushions can inflate and deflate to apply pressure on a passenger's body, from thighs to shoulders. Seven unique programs (each lasting 15 minutes) and five pressure levels enable a relaxing experience to suit any given mood.

[1]Please use this function with care when the vehicle is in motion.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 350h model shown

Seven-seat Configuration[1]

The layout prioritises the second row of business-class-like passenger seats, without sacrificing the comfort and privacy needs of other passengers thanks to a range of thoughful inclusions. In the four-passenger variant, the space's seamless vertical and horizontal design motif exudes a welcoming, wide-open feel. Expansive windows provide unobstructed outward views, flooding the cabin with natural light. Aisle (walk-through between seats) or aisleless specifications are available.

[1]Available on LM 350h models only.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 350h model shown

Mark Levinson®,[1] Reference 3D Surround Sound System

The surround sound audio system (21-speaker for LM 350h models, 23-speaker for LM 500h models) minimises front-to-rear localisation variability and provides precise stereophonic sound with excellent spread. Speaker placement realises a three-dimensional effect, culminating in an embracing, profound listening experience akin to being at a live concert venue. Clari-Fi compressed sound source restoration technology analyses the compressed sound source in real-time and complements lost data components, restoring natural vocals and stereo ambience.

Personal Device Charging

A USB Type-C port on the lower section of the second-row passengers' seats allows for quick and convenient device charging. An HDMI port and 220V power supply are found at the end of the centre console.

Universal Step

A powered step deploys and stows in coordination with the sliding door's opening and closing. This reduces the step height to around 220 millimetres, allowing for easier entry and exit when passengers are formally dressed.

[1]Product and company names are trademarks of their respective owners.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 350h model shown

Lexus Climate Concierge

A one-stop, integrated control of rear area comfort equipment. Covering seat reclining, air conditioning, ambient illumination, and shade functions. Passengers can select one of five pre-set modes – Dream, Relax, Focus, Energise, My Original – all on the multi-operational panel controllers that best suit their desired environment.

LM 350h model shown

Rear Seat Entertainment (RSE)[1]

A minimalist-styled, 14-inch ceiling-mounted high-definition screen fits snugly into the overhead console. When deployed, the screen can display the same content as the front seats, or different content with the independent viewing mode enabled.

LM 350h model shown

Overhead Console

A sleek control panel is located above and centre of the second row. It integrates small item storage, air conditioning vents, area lamps and Rear Seat Entertainment (RSE). Controls for lighting and Lexus Climate sunshades are also found here.

[1]Available on LM 350h models only.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 500h model shown

Soft Surface Layer

Two types of vibration-absorbing materials – low-resilience foam (high viscoelasticity traits) and urethane (high sitting pressure dispersion quality) – encompass the body to provide proper support, reducing vibrations transmitted from outside the vehicle.

Seat Operation

A seat-shaped control adjusts the seat's reclining, lower seat cushion tilting (new), ottoman extension and heating and cooling functions. If desired, the seat can be fully reclined to a flat position.[1]

[1]Please use this function with care when the vehicle is in motion.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

Relaxation Function

Air bladders within the seat's back and cushions can inflate and deflate to apply pressure on a passenger's body, from thighs to shoulders. One program (lasting 15 minutes) and two pressure levels create a relaxing experience to suit any given mood.

Armrest Table

The centre armrest houses a stowable table wrapped in an upholstery that enhances tactile feel, slip/scratch prevention, and practical functionality when writing or reading.

Multi-operation Panel[1]

Located in the second-row seats' inner armrest, the touchscreen remote control commands seat functions, as well as Lexus Climate Concierge, audio and ambient illumination settings. A warning buzzer sounds when the controllers leave the interior's immediate vicinity.

Front Seatback Storage and Assist Grip

Both the driver and passenger front seatbacks feature a useful pocket for small items. A shopping bag hook folds seamlessly into the assist grip for added convenience.

Adjustable Headrest

A large, vertically adjustable headrest features an ergonomic shape to support a wide range of head sizes and shapes, as well as body postures.

[1]Aisleless specification only

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 350h model shown

The roomy, thick seat backs and cushions wear a combination of Semi-aniline leather accented, Leather accented and Ultrasuede[1] for a comfortable feel and luxurious look. Seven-seat specifications offer generous space between passengers, with a tray in the centre area. The third row's reclinable seats can slide forward and backward for additional legroom and their multi-position tip-up function allows for the better accommodation of luggage. A USB Type-C port is tucked neatly into each side's quarter panel armrest.

[1]Black interior only.

Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— FEATURES

LM 350h model shown

Seven-seater[2]

With the third row moved to the frontmost position, two 9.5-inch golf bags and four 9-inch golf bags can fit in the cargo hold, which translates to four 77cm suitcases. Flip up the third-row seats and up to five 77cm suitcases can fit in the cargo hold.

Four-seater[1]

Four 9.5-inch golf bags or two 77cm luggage cases can be stowed behind the second row of seats.

[1] Available on LM 500h models only.
[2] Available on LM 350h models only.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

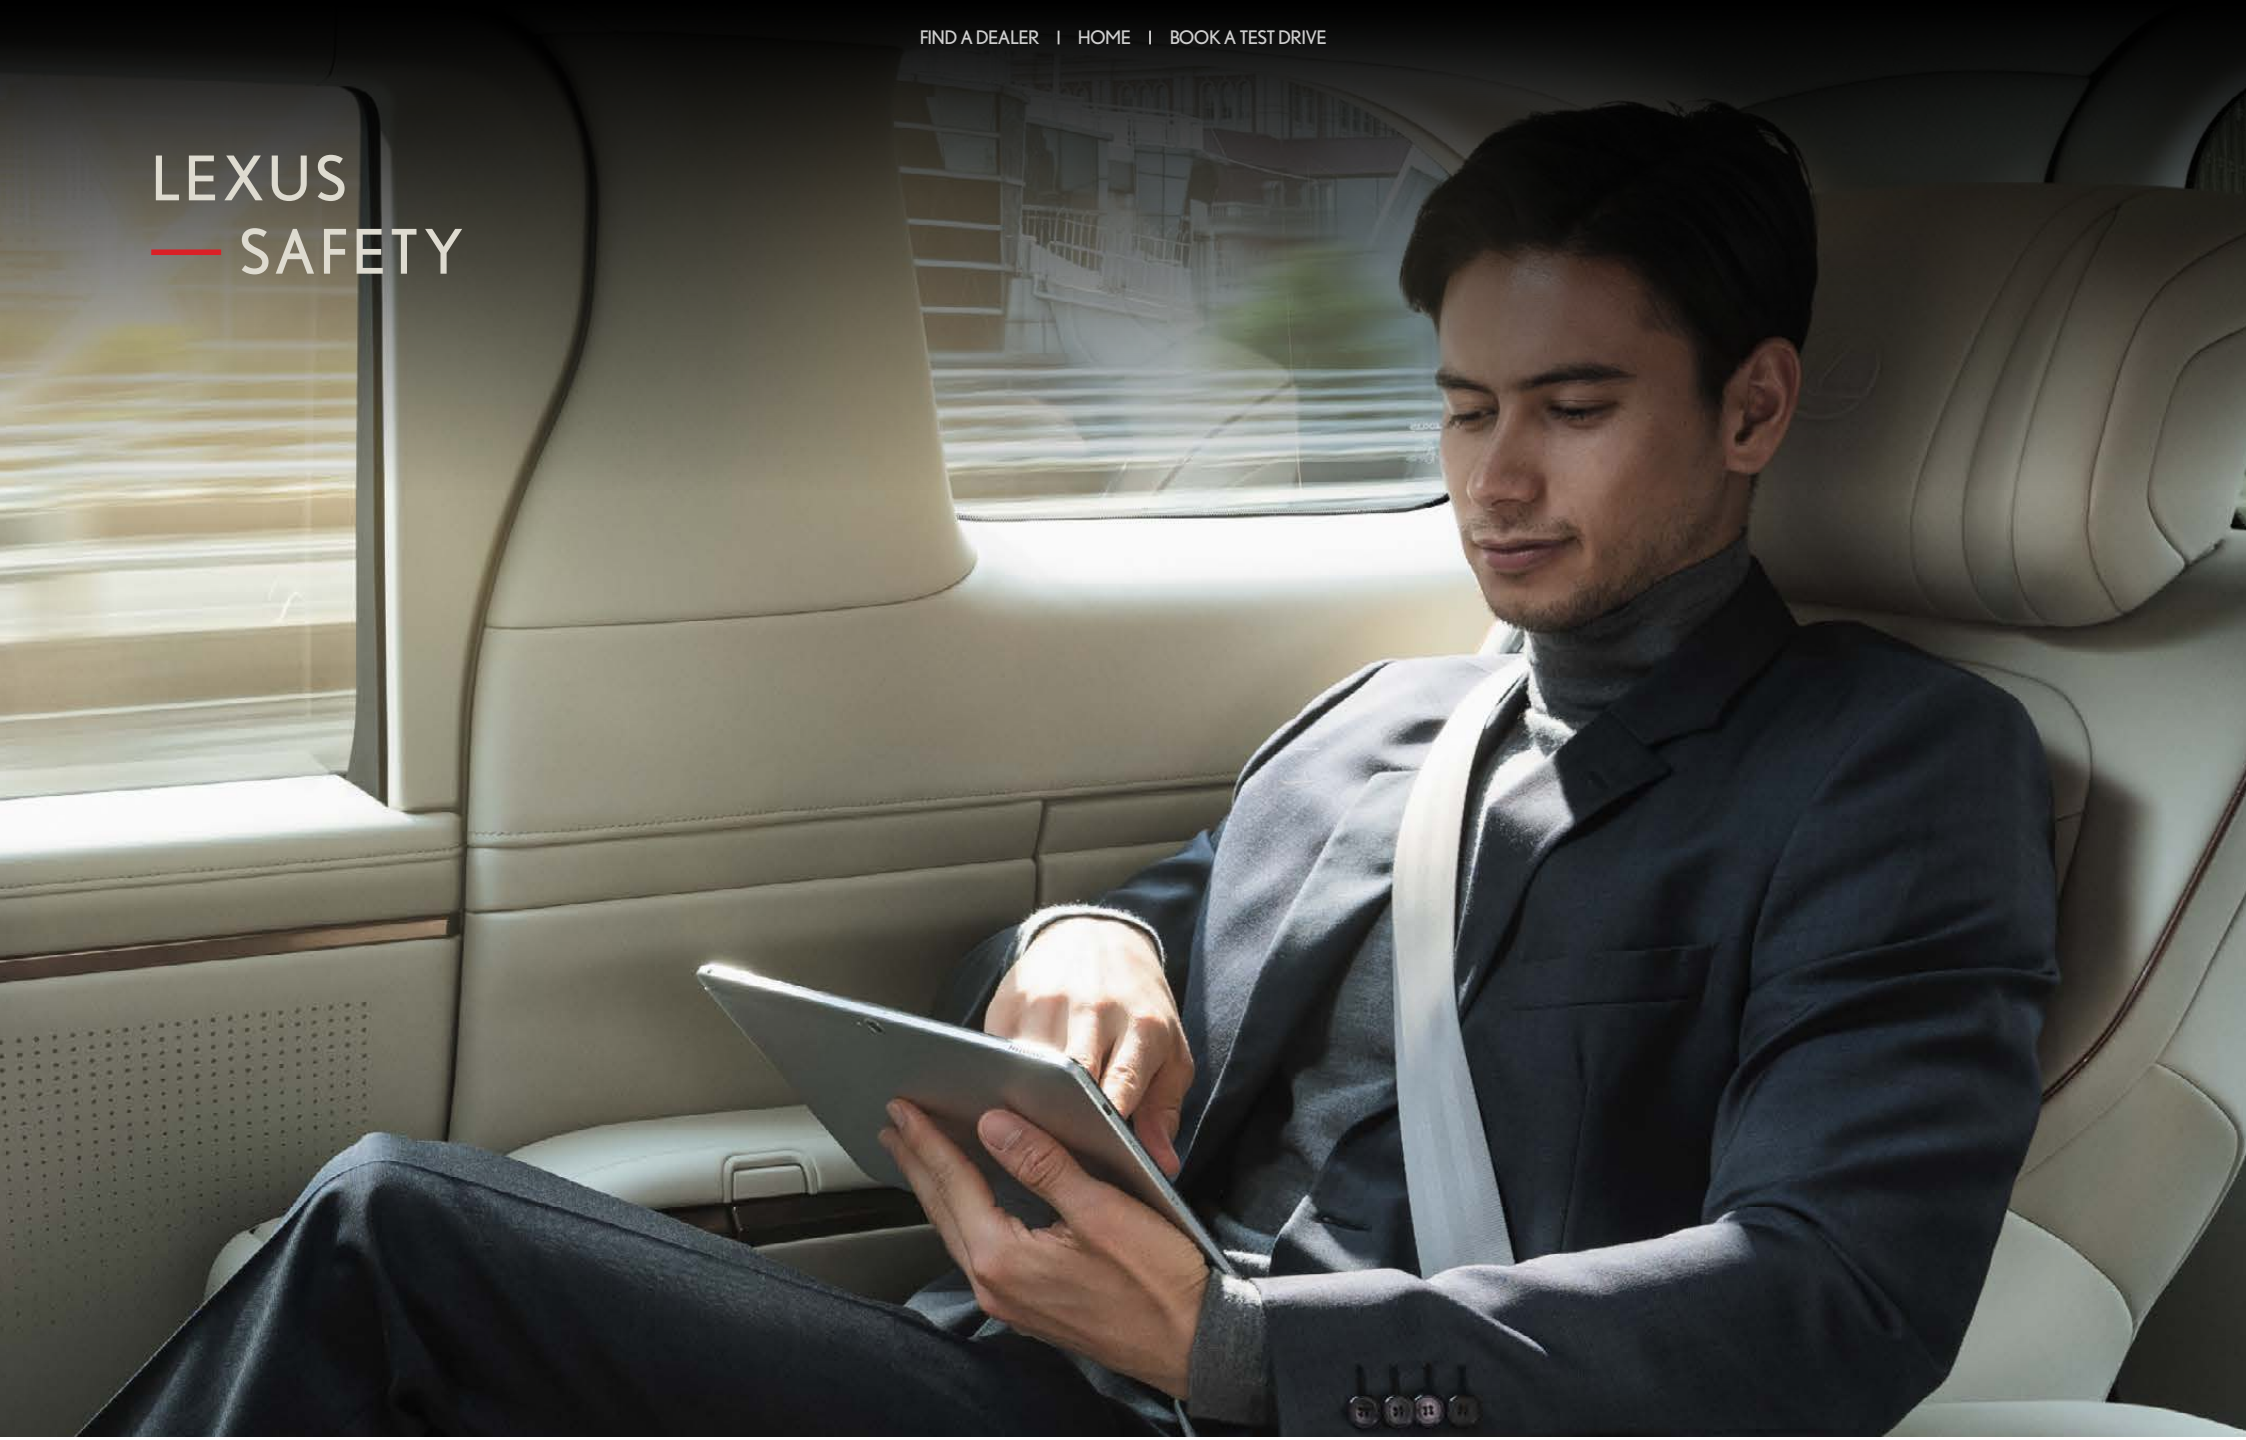

— FEATURES

- Power long slide rail[1]
- Multi-position tip-up seat
- Rear-targeted A/C adjustment function[2]
- Side door see-saw handle switch
- Removable rear multi-operational panel
- Armrest and ottoman heaters

[1] Available on LM 350h models only.
[2] Available on LM 500h models only.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

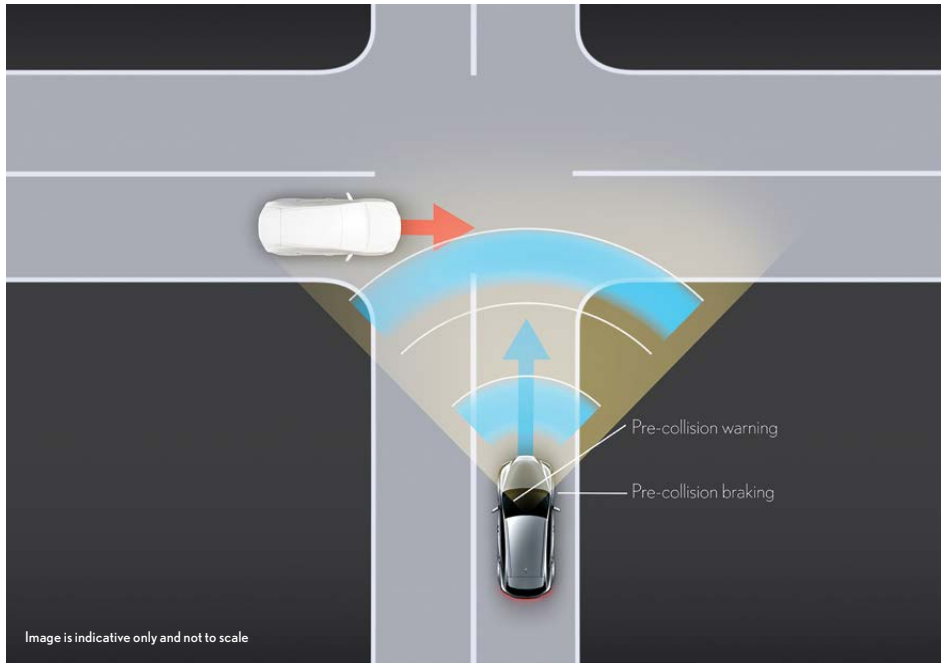

LEXUS — SAFETY

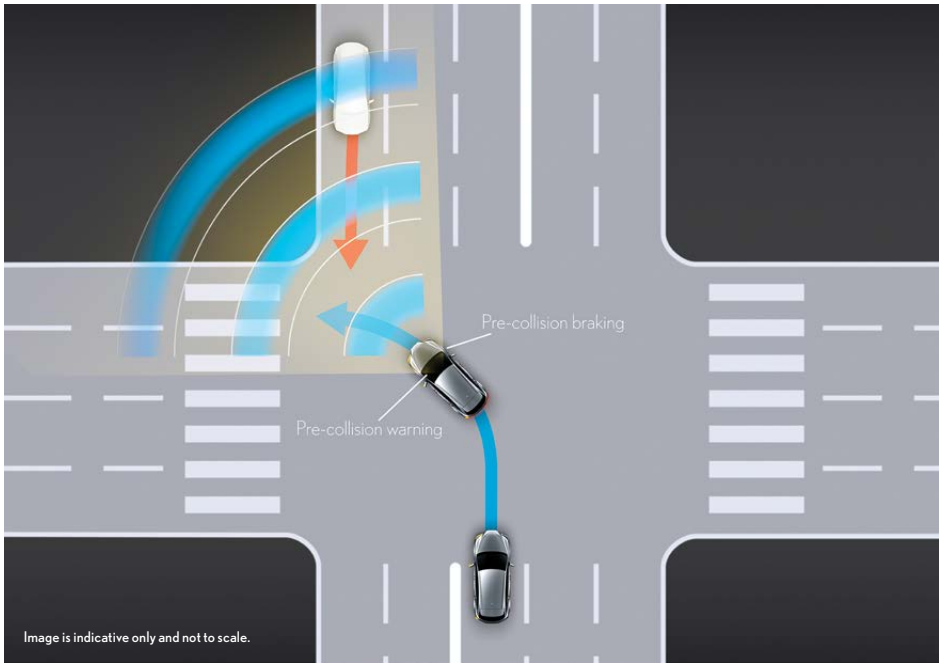

Overseas model LM 500h shown. Australian specifications and features may differ. See your Lexus dealer for details.

— SAFETY

LEXUS SAFETY SYSTEM +

Lexus Safety System+ (LSS+)

The new LM is equipped with the Lexus Safety System+. It has a detection range on the millimetre wave radar and monocular camera, which aim to help prevent accidents, and assist drivers on ordinary roads. Additionally, Safe Exit Assist[1] is an automatic door-opening cancellation function linked to the Blind Spot Monitor[1] sensor and e-latch system, that supports safe, secure exit.

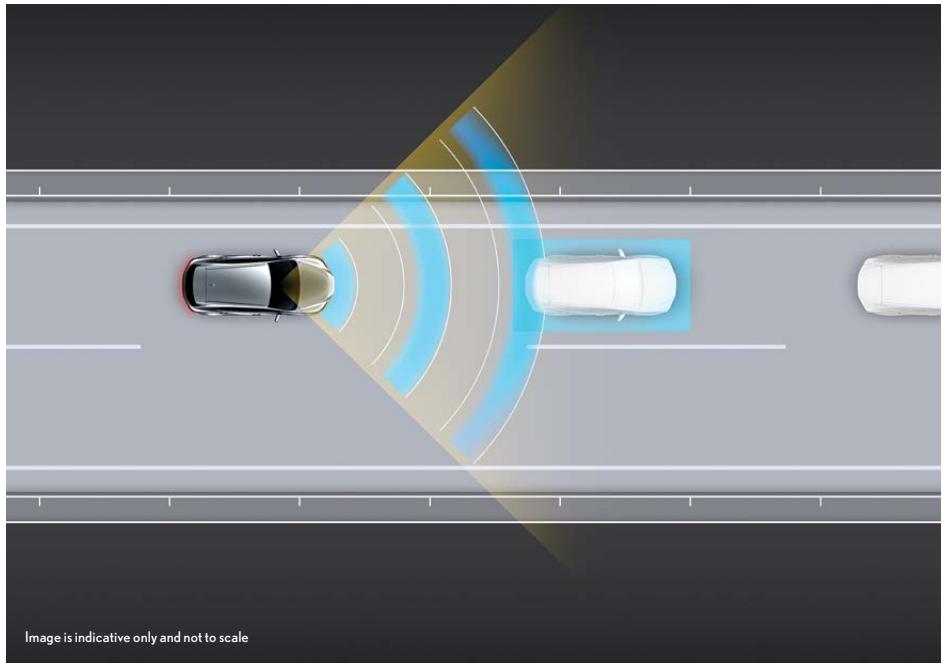

Pre-collision Safety (PCS)[1]

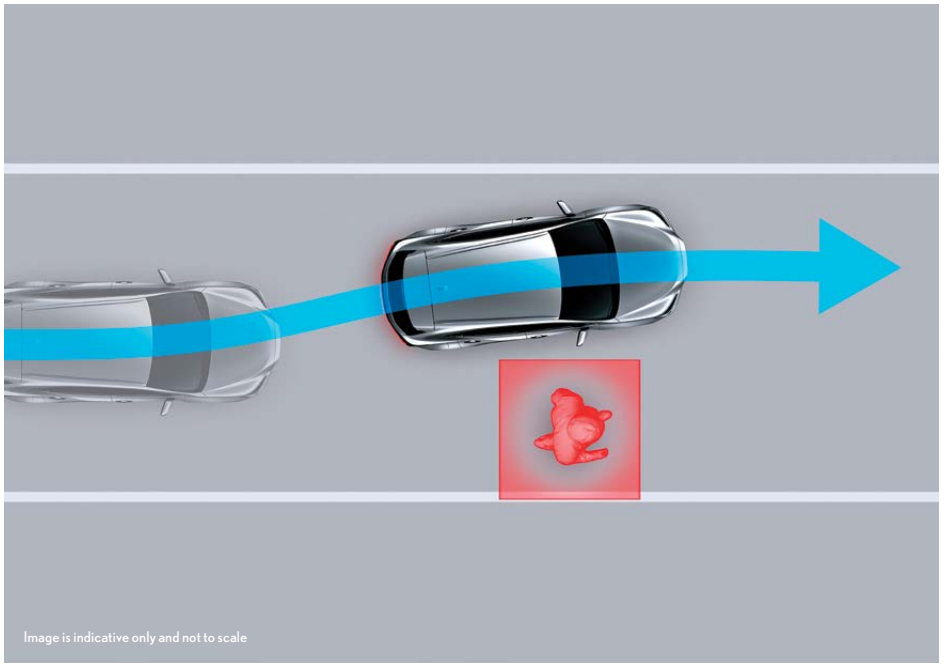

Assistance at intersections has been expanded to include assistance in avoiding collisions with intersecting vehicles, oncoming vehicles coming straight ahead when turning and pedestrians and cyclists approaching from ahead when turning. In addition, the scope of assistance has been expanded to include motorcycles (daytime only), oncoming vehicles that have deviated from their lane and cyclists at night. When the system determines that there is a high possibility of a collision, it will activate the alarm and brakes to help mitigate the damage.

[1]Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely. Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— SAFETY

LEXUS SAFETY SYSTEM +

Dynamic Radar Cruise Control (DRCC) with All-Speed Follow Function[1]

In addition to providing preliminary acceleration in response to the operation of the turn signal when overtaking another vehicle, if a preceding vehicle in the target lane is traveling at a speed slower than the set vehicle speed, the system provides preliminary deceleration, again in response to the operation of the turn signal. This is designed to prevent a sudden approach to the preceding vehicle and enhances the sense of security. By enhancing the performance of detecting curves ahead and decelerating earlier in accordance with the size of the curve, the curve speed control function has evolved to be more in tune with the driver's senses. When there is a vehicle in the overtaking lane that is slower than the vehicle's speed, the system decelerates the vehicle so that it does not overtake from the driving lane and maintains the distance between the two vehicles.

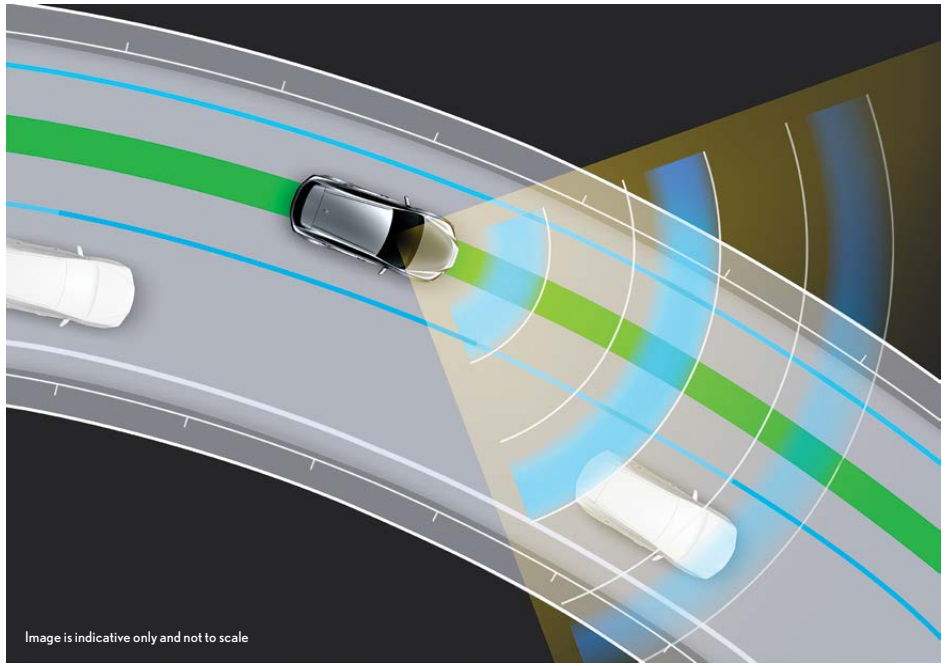

Lane Departure Alert (LDA) with Steering Assist[1]

LDA works in sync with the driver. For example, it deactivates the lane departure warning and restraint functions when it can judge that the driver has made a deliberate manoeuvre to avoid a person or parked vehicle. In addition, the system now recognises utility poles, curbs, guardrails, walls, and continuous poles, enabling additional support at lower speeds.

[1]Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely. Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— SAFETY

LEXUS SAFETY SYSTEM +

Lane Tracing Assist (LTA)[1]

Lane recognition performance has been enhanced to realise smoother and less disruptive steering support. In situations such as overtaking a vehicle in the adjacent lane, or when there is a close distance between the vehicle and an off-road structure, the tracing position is offset from the centre of the road to the avoidance side, just like the driver's driving, to achieve cooperative control with the driver.

Road Sign Assist (RSA) (Speed Signs Only)[1]

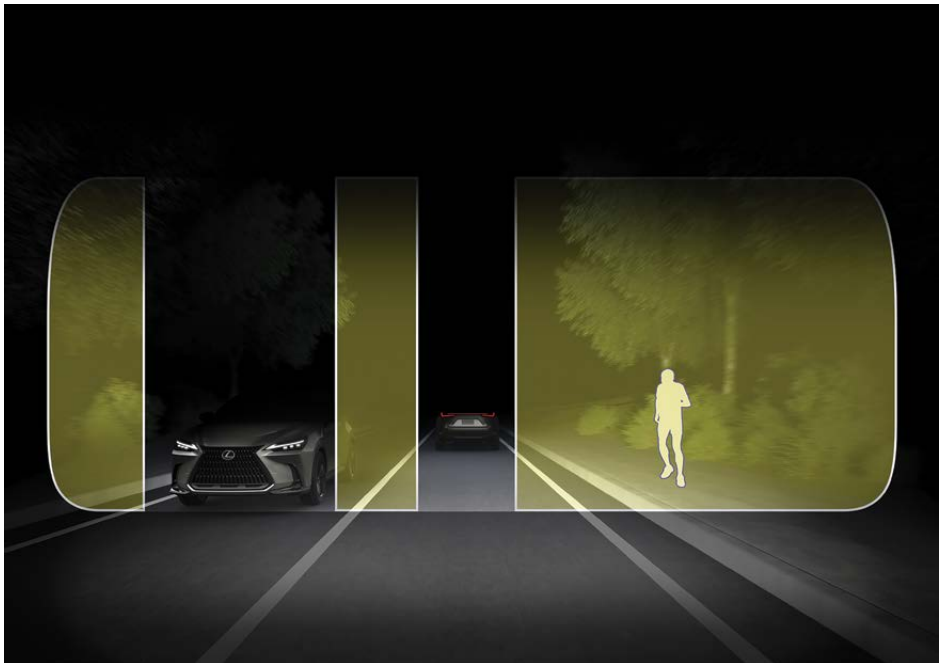

RSA allows information from road signs to be detected and displayed on the Multi-Information Display or Head Up Display. It also restricts the vehicle's speed based on speed limit signs.

[1]Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— SAFETY

LEXUS SAFETY SYSTEM +

Automatic High Beam (AHB)[1]

Automatic High Beam automatically turns the high beam lamps off if another vehicle is detected and automatically turns the high beam lamps on once the vehicle is gone.

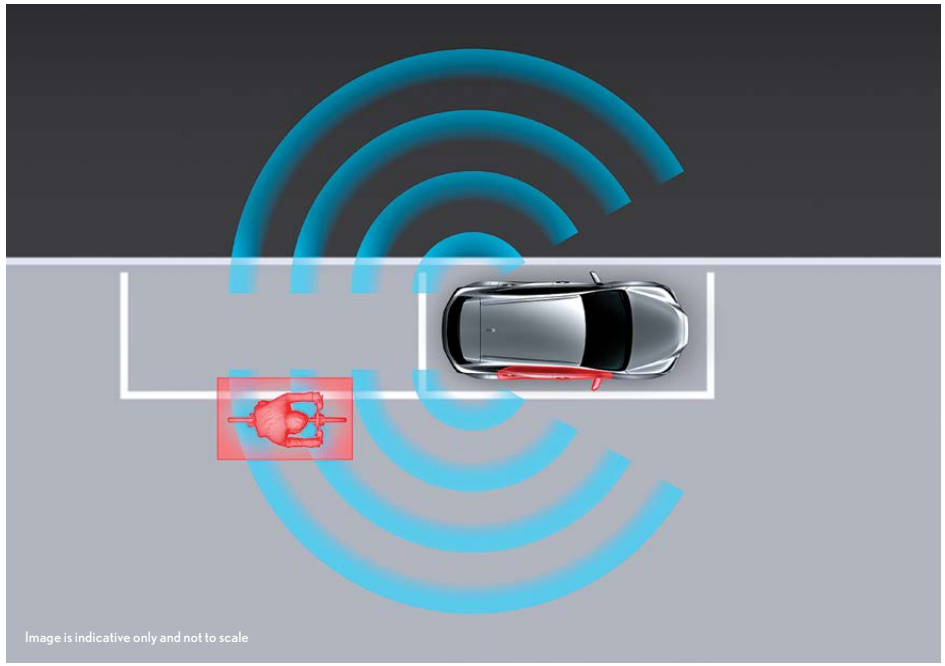

Adaptive High Beam System (AHS)[1]

Headlamp light distribution is automatically adjusted once light from an approaching or preceding vehicle is detected by a monocular camera. LED chips within the headlamps can be enabled/disabled for precise control of illuminated or non-illuminated areas.

[1]Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely. Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

— SAFETY

LEXUS SAFETY SYSTEM +

Safe Exit Assist (SEA) with Door Opening Control[1]

SEA uses the Blind Spot Monitor System (BSM) to detect vehicles or bicycles approaching from the rear, when exiting the vehicle. If SEA determines a collision with an opened door or exiting occupants is a possibility, an indicator in the door mirror lights up to alert occupants. In addition, if an occupant tries to open a door, the e-latch system cancels door unlatch operations. Occupants are alerted by flashing indicators in the door mirror, the multi-information display, and a buzzer.

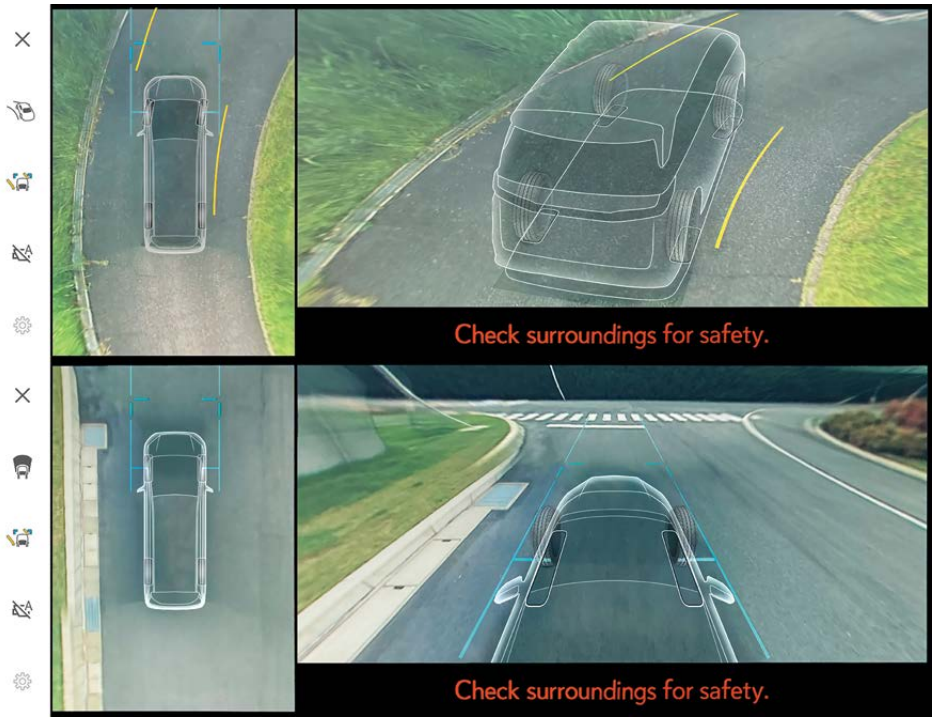

Digital Rear-view Mirror [1]

A Digital Rear-view Mirror displays images from the backup camera at the rear of the vehicle on the in-mirror display, providing a wide field of view and images adjusted for clarity, enhancing excellent visibility even when it is difficult to check behind the vehicle.

[1]Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely. Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

SAFETY

LEXUS SAFETY SYSTEM +

Blind Spot Monitor (BSM)[1]

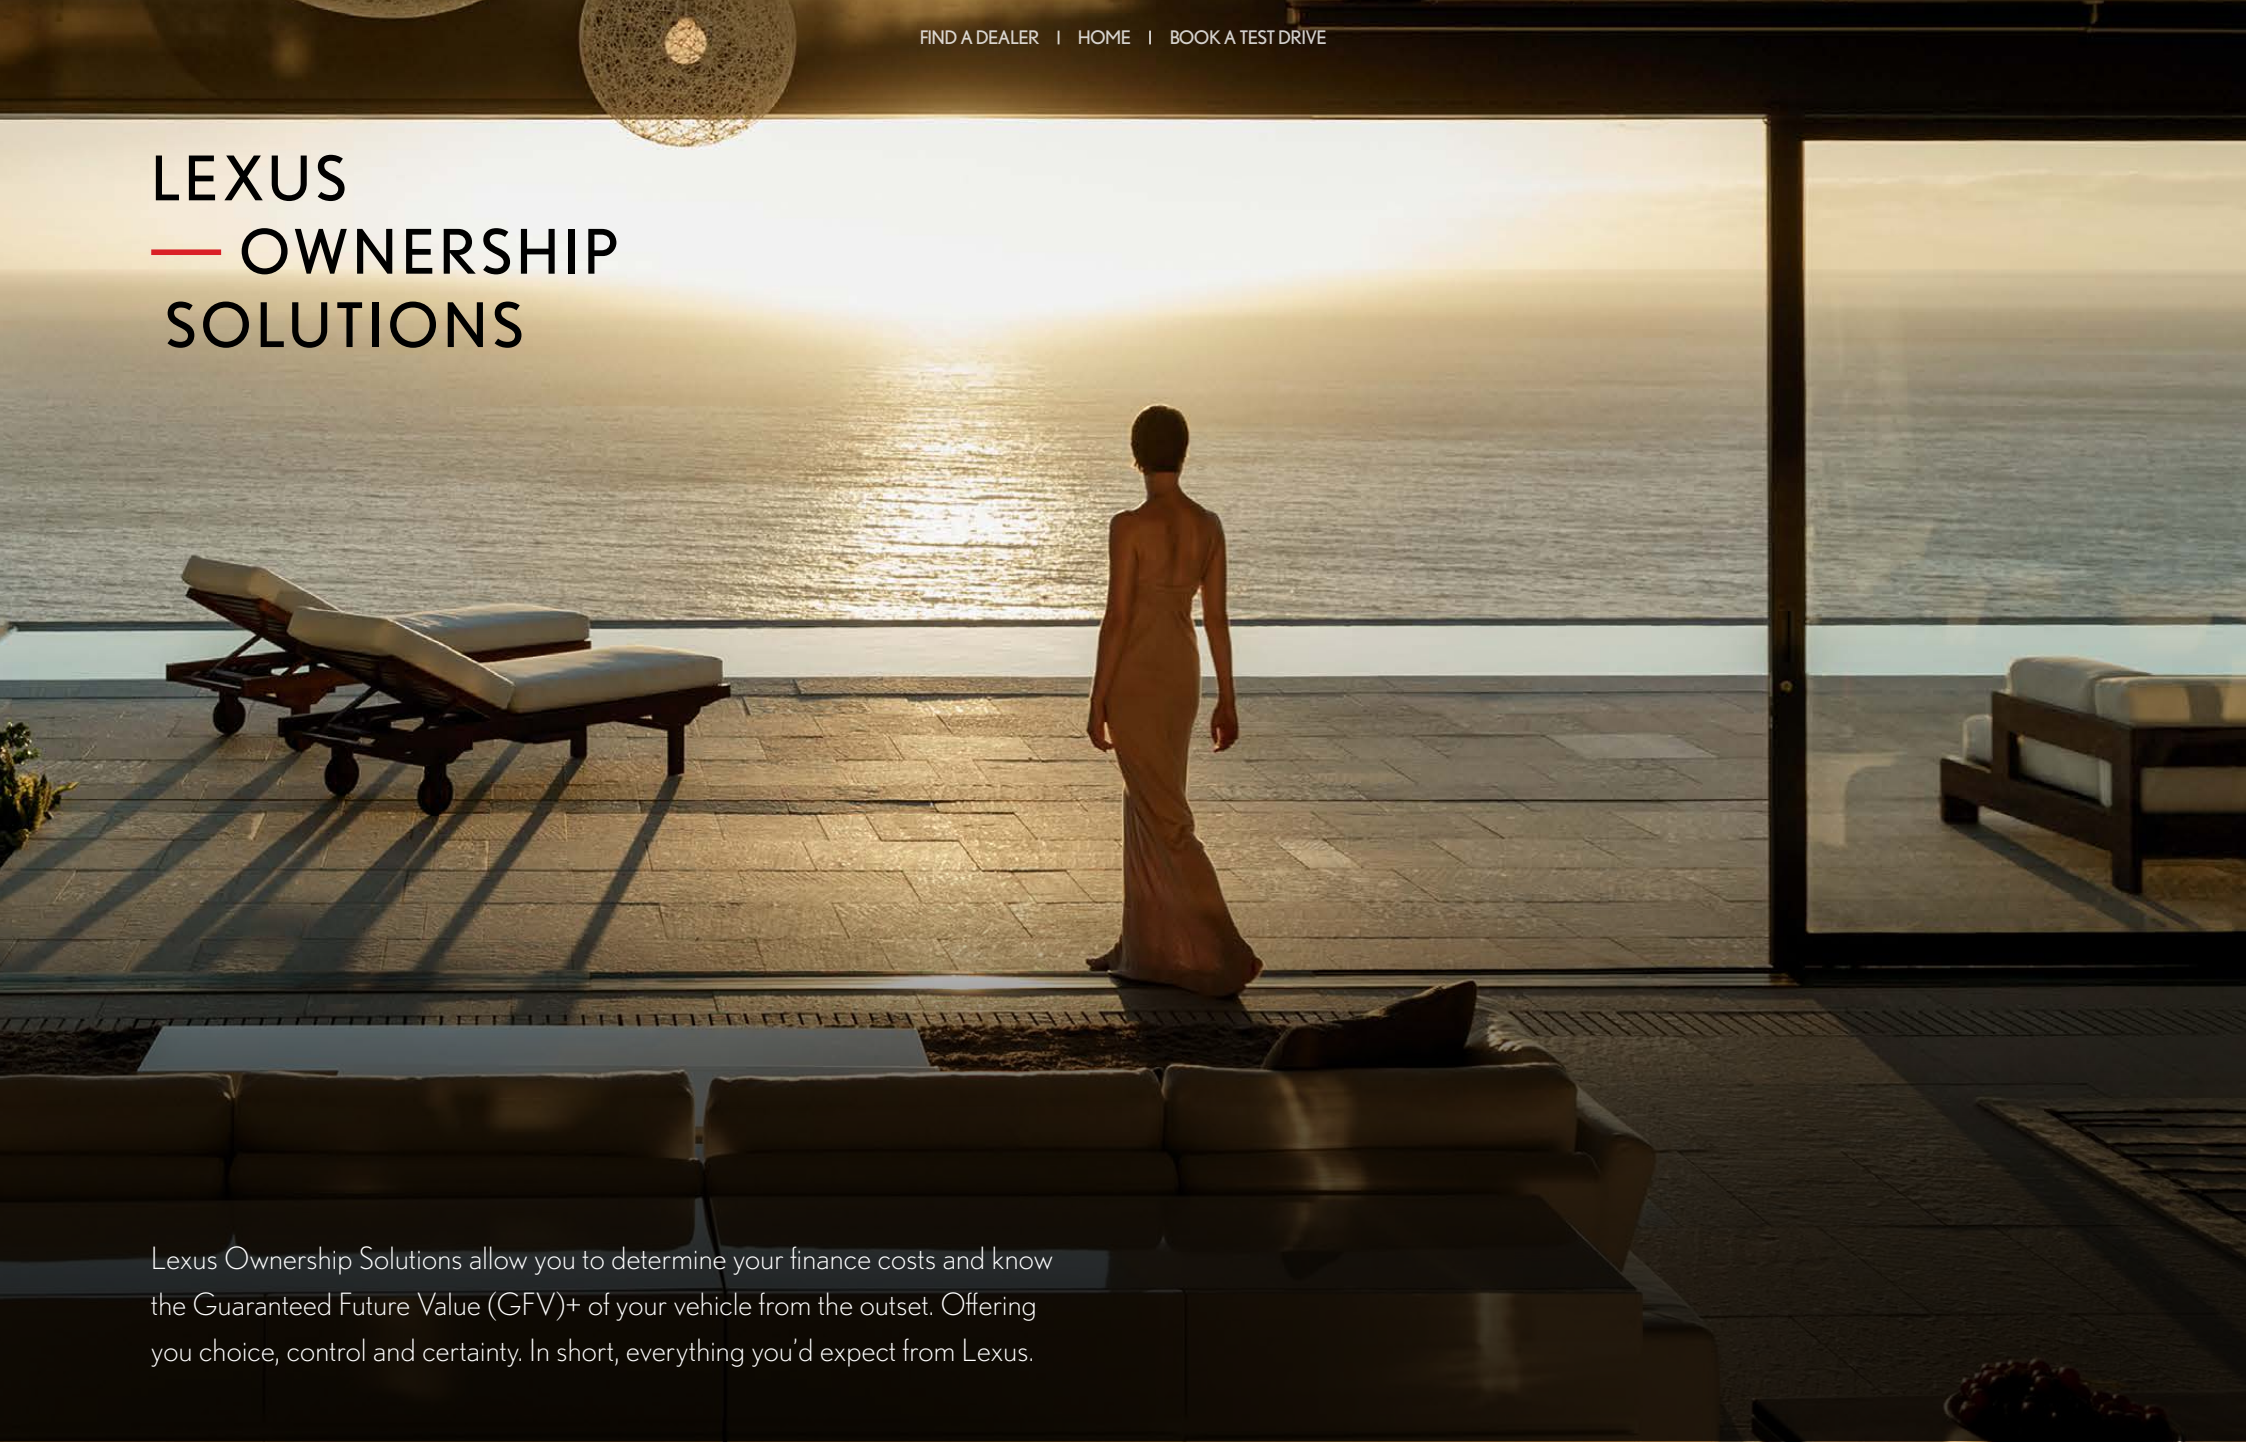

During lane changes, the BSM uses rear lateral side millimetre-wave radar to detect vehicles present in the blind spots (areas in adjacent lanes that cannot be seen using the outer mirrors), and alerts the driver using an indicator in the outer mirror and a buzzer.

e-Latch System with Door Easy Closer

An e-latch system replaces the conventional door latch/unlatch mechanism with an electronic control that opens and closes doors smoothly with no wasted movements, like a sliding shoji paper door. To open a door when getting in, simply press the switch on the inside of the door handle while pulling the handle towards you in the usual way. When getting out, the door opens in a single action by pressing a switch while holding the pull handle. If the battery power supply is cut, for instance, due to a collision, the doors can be opened using a manual release handle.

[1]Driver assist feature. Only operates under certain conditions. Check your Owner's Manual for explanation of limitations. Please drive safely.
Overseas model shown. Australian specifications and features may differ. See your Lexus dealer for details.

LEXUS — OWNERSHIP SOLUTIONS

Lexus Ownership Solutions allow you to determine your finance costs and know the Guaranteed Future Value (GFV)+ of your vehicle from the outset. Offering you choice, control and certainty. In short, everything you'd expect from Lexus.

The Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Lexus at the end of your finance contract, as determined by Lexus Financial Services (LFS). If you decide to return your car to Lexus at the end of your term, LFS will pay you the agreed GFV which will be put against your final payment, subject to fair wear and tear conditions and agreed kilometres being met. The information provided is general in nature. You should seek your own financial advice to determine whether Lexus Ownership Solutions is appropriate for your individual circumstances. Please speak with your Lexus Dealer for more information. Terms, conditions, fees and charges apply. Lexus Ownership Solutions GFV products are available to approved customers of Lexus Financial Services, a division of Toyota Finance Australia Limited ABN 48 002 435 181, AFSL and Australian Credit Licence 392536.

LEXUS OWNERSHIP SOLUTIONS

How does Lexus Ownership Solutions work?

You choose the deposit that best fits your needs.

- You choose your term, ranging from 1 – 4 years.
- You decide on the estimated kilometres you think the vehicle will have travelled at the end of the term (the End Odometer). The End Odometer will also include any kilometres already on the vehicle.
- Lexus Financial Services (LFS) then determines the GFV[1] of your vehicle and calculates your monthly repayments with a final payment equal to the GFV. The GFV is the minimum value of your Lexus at the end of your finance contract. So, if you choose to return your Lexus at the end of the term, LFS will pay you the GFV which will be put towards the remaining balance owing on your account (subject to fair wear and tear conditions and agreed kilometres being met).

The end of the term? Simply replace, retain or return.

At the end of your term you can choose to:

- Replace or sell your Lexus using the trade-in value or sale price to pay the remaining balance of your account.
- Retain your Lexus and simply pay the remaining balance of your account (including final payment).
- Alternatively, return your Lexus and, subject to fair wear and tear conditions and the agreed kilometres being met, we'll put the GFV towards the remaining balance on your account.

Choosing your deposit – what is best for you?

With the flexibility of Lexus Ownership Solutions, you can choose the deposit that best fits your current needs.

- If, for example, you have funds tied up in other investments, you can choose to finance your new Lexus with a zero deposit.[4]
- Alternatively, by using a larger deposit, you can lower your monthly repayments.
- Or, compared to other finance options over a similar term with no GFV or equivalent balloon final payment, Lexus Ownership Solutions can provide lower monthly repayments.[2]

Want more certainty?

With Lexus Ownership Solutions, you've got the reassurance that at the end of the term (subject to fair wear and tear and agreed kilometres being met), you will know your GFV,[1] the minimum value of your Lexus from the outset, as determined by LFS.

What happens in the case of the unexpected?

If your vehicle incurs damage and does not meet the Fair Wear and Tear guidelines, LFS will give you the opportunity to have your vehicle repaired. Otherwise, LFS can organise the repairs and deduct the cost from your GFV. This adjusted GFV will then be the price that LFS will offer you if you return the vehicle at the end of your term. Of course, if you retain the vehicle, the condition doesn't matter, however, if you replace it or sell it privately, the condition will obviously impact your sale price.

So what does your accountant think?

Naturally, we think Lexus Ownership Solutions is an excellent, innovative way to put you in control of buying a new Lexus. That said, we suggest you seek independent advice to ensure Lexus Ownership Solutions is right for you.

Wouldn't it be great if Lexus Ownership Solutions was just the beginning?

Lexus' innovations and commitment to customer service extend well beyond Lexus Ownership Solutions. Once you purchase a new Lexus you'll gain access to Encore, Lexus' luxury ownership program.[3] For further details, simply visit your nearest Lexus dealer or see **lexus.com.au/owners/benefits**

[1]The Guaranteed Future Value (GFV) is the minimum value of your new or approved demonstrator Lexus at the end of your finance contract, as determined by Lexus Financial Services (LFS). [2]Lower monthly repayments compared to a similar term with no Guaranteed Future Value (GFV) or equivalent balloon final payment. Total interest charges will be higher if a GFV or balloon final payment is selected.
[3]Encore Program is available to all Lexus Vehicle Owners. Memberships and benefits vary depending on eligibility and vehicle model owned. Encore Lifestyle Benefits last for 5 years except for paid Encore Elevate which lasts 1 year from activation by Lexus. Inclusions may be substituted from time to time and may be subject to availability. For full T&Cs, see your Lexus Dealer or **lexus.com.au/encore**.
[4]Approved applicants only. Terms and conditions apply. A deposit may be required for capacity reasons.

LEXUS ENCORE

Where Life Meets Amazing

Lexus allows you to experience amazing, but it doesn't end when you get out of your car. Unlock even more luxury with Lexus Encore:[1] an ownership program that brings amazing to every area of your life. Find out more details about Lexus Encore at **lexus.com.au/owners/benefits**

The LM is applicable to these Encore offerings:

ENCORE PLATINUM

This complimentary 5 year* ownership offering lets owners enjoy all the Encore Signature inclusions as well as additional redemptions of Lexus On Demand,[6] Valet Parking[7] and Airport Lounge[5] passes.

ENCORE ELEVATE

This 1 year subscription[2] can be purchased by any Lexus owner.[1] It builds on Encore Signature with Lexus On Demand,[6] Valet Parking[7] and Airport Lounge[5] passes.

*Applicable to vehicles purchased from 1 July 2026. Excludes Connected Streaming (1 year complimentary period for eligible vehicles). Complimentary periods may vary. The different components of Lexus Connected Services may have different complimentary periods. The full 5 year period may not apply to Lexus Connected Services (subject to 4G / 5G sunset, depending on the applicable DCM fitted to the vehicle and / or termination under T&Cs, whichever occurs first) or all and all components under Lexus Warranty Experience components. See **lexus.com.au/smallprint/encore-terms** for full T&Cs.

[1]Encore Program is available to all Lexus Vehicle Owners. Memberships and benefits vary depending on eligibility and vehicle model owned. Encore Lifestyle Benefits last for 5 years except for paid Encore Elevate which lasts 1 year from activation by Lexus. Inclusions may be substituted from time to time and may be subject to availability. For full T&Cs, see your Lexus Dealer or **lexus.com.au/encore**. [2]Encore Elevate Lifestyle Benefits can be purchased by all Lexus Vehicle Owners (excluding current Encore Platinum members), for a 1 year period from the date Encore Elevate is first purchased by the Lexus Vehicle Owner and activated by Lexus. Inclusions may be substituted from time to time and may be subject to availability. For full T&Cs and eligible models, see your Lexus Dealer or **lexus.com.au/encore**. [3]DriveCare applies for a 5 year period from delivery date. Coverage and service inclusions vary dependent on the type of vehicle and vehicle location. For full T&Cs see your Lexus Dealer or **lexus.com.au/smallprint/encore-terms**. [4]Service Loan Car applies for a 5 year period from delivery date. Inclusions may be substituted from time to time and may be subject to availability. For full T&Cs see your Lexus Dealer or **lexus.com.au/smallprint/encore-terms**. [5]Encore Platinum members receive 4 complimentary airport lounge pass redemptions at selected airport lounges over the 5 year membership. Encore Elevate members receive 2 complimentary airport lounge pass redemptions at selected airport lounges over the 1 year membership. Participating airport lounges may change from time to time. Subject to availability. [6]Lexus On Demand may apply for a 1 year period (as part of Encore Elevate) or 5 year period (as part of Encore Lifestyle Benefits) with a varying number of redemptions depending on the type of Encore membership. Vehicles may vary dependent on location and availability. For full T&C's, details and eligibility requirements see your Lexus Dealer or **lexus.com.au/encore**. [7]Encore Platinum members receive 8 complimentary valet parking redemptions at selected locations over the 5 year membership. Encore Elevate members receive 4 complimentary valet parking redemptions at selected locations over the 1 year membership. Participating locations may change from time to time. Subject to availability. [8]Applies to standard scheduled logbook servicing (normal operating conditions) for specified yrs/kms (whichever occurs first) up to a maximum specified number of services (whichever occurs first). Lexus vehicles that receive complimentary servicing are not eligible for Capped Price Servicing. For details or to confirm eligibility see your Lexus dealer or visit **lexus.com.au/smallprint/capped-price-servicing**. [9]Offer limited to 5c/litre fuel discount in one transaction per 24 hour period per vehicle registered to a Lexus Encore App account. Offer available on Premium Fuels, up to 150 litres, at participating Ampol service stations. List of participating locations available at **lexus.com.au/owners/ampol-finder**. List subject to change without notice at sole discretion of Ampol. For T&Cs, visit **lexus.com.au/encore.**
